Europass Curriculum Vitae

Personal information

First name(s) / Surname(s)	**Poul-Erik Jensen**
Address(es)	Burrehøjvej 8, Foulum, DK-8830 Tjele, Denmark
Telephone(s)	+45 35 11 74 86 Mobile: +45 21 62 20 62
Fax(es)	
E-mail	pej@peprogrammering.dk
Nationality	Danish
Date of birth	08-08-1965
Gender	Male

Desired employment / Occupational field	**Freelance IT- Architect, C#.Net developer or SQL developer. Back-end / front-end, web or windows and of course the use of databases**
Work experience	30 years in IT programming. More than 11years on .Net and around 10 on C# with a background in C and C++ and about 15 years with SQL mostly MS SQL Server and T-SQL.

Dates	August 2022 – Novenber 2022
Occupation or position held	Sap Business One developer
Main activities and responsibilities	Ongoing development on costumer projects, integrations and advisory, using C#, SQL, XML, SB1, ServiceLayer, B1UP.
Name and address of employer	bitPeople, Denmark
Type of business or sector	ERP
Dates	June 2022 – September 2022
Occupation or position held	IoT Developer
Main activities and responsibilities	Making prove of concept on IoT Hub and implementing the IoT Hub part in the production line environment for the new hardware item, using IoT Hub, C#, XML and Postman
Name and address of employer	Tunstall, Denmark
Type of business or sector	Helthcare
Dates	Marts 2022 – Junel 2022
Occupation or position held	Delphi senior developer
Main activities and responsibilities	Developing in Delphi on an existing application to catch and monitor data in an intensive care environment using Delphi, DBeaver, SQL and Python
Name and address of employer	Cambio, Denmark
Type of business or sector	Helth care
Dates	April 2020 – April 2022
Occupation or position held	SAP Business One developer

Main activities and responsibilities	Developing on SBO doing a lot of macro(UDF) and SQL development, but also doing UI with Item Placement Tool. In general using Boyum B1UP and also Cristal. Database creating both tables and fields. Finally C# development reading data direct from the database and updating through ServiceLayer Using OData 4.0
Name and address of employer	Witt A/S, Denmark
Type of business or sector	Retail
Dates	October 2019 – Decemberl 2019
Occupation or position held	Senior developer
Main activities and responsibilities	Developing on an ESDH system user primarily in the government area. C#, Angular JavaScript, Oracle, WorkZone and TFS.
Name and address of employer	KMD, Denmark
Type of business or sector	Semi government
Dates	January 2019 – April 2019
Occupation or position held	Senior developer
Main activities and responsibilities	Taking over on a MVC project handling approvals for sales personal, so that they do not sell something that cannot be delivered on that time or to that price. C#, Angular JavaScript, MS-SQL Server, Azure and TFS.
Name and address of employer	SiemensGamesa, Denmark
Type of business or sector	Production
Dates	November 2018 – November 2018
Occupation or position held	Senior Fullstack developer
Main activities and responsibilities	Making a system to show ongoing status of production lines. C#, MS-SQL Server, SharePoint, Razor
Name and address of employer	Vølund, Denmark
Type of business or sector	Production
Dates	Marts 2018 – October 2018
Occupation or position held	Senior .Net developer
Main activities and responsibilities	Making changes to a system controlling hardware units used in the healthcare area. VB and C#, MS-SQL Server, Entity framework, multithreading, SVN. (CareComDECT and CareCom IP)
Name and address of employer	Tunstall,.Stilling, Denmark
Type of business or sector	Hardware
Dates	June 2016 – October 2017
Occupation or position held	Senior .Net developer
Main activities and responsibilities	Working on internal ERP system, OK created their own system and did not use existing systems. Everything was homemade and as such needed to be extra tested to make sure that it worked. Among other things I had the job to make a system to full fill the new demands from SKAT regarding digital reporting of interests. C#, MS-SQL Server, Entity framework, WCF, Application Integration, TFS and GIT.
Name and address of employer	OK AMBA,.Viby, Denmark
Type of business or sector	Energy
Dates	Marts 2016 – May 2016
Occupation or position held	Senior .Net developer
Main activities and responsibilities	Working on existing system towards an insurance company handling signing of new private insurances. C#, MS-SQL Server, Entity framework, Angular JS, Knockout JS, MVC, Application Integration and SVN.
Name and address of employer	MicroTech Software A/S, Ărhus, Denmark
Type of business or sector	Insurance
Dates	February 2016 – Marts 2016
Occupation or position held	Embedded developer
Main activities and responsibilities	Developing towards an industry board. C/C++
Name and address of employer	TekPartner, Herlev, Denmark
Type of business or sector	Industry

Dates	December 2015 – January 2016
Occupation or position held	Senior .Net developer
Main activities and responsibilities	Creating intranet app for a callcenter, to handle import of data and registering call to subjects for clients. C# .Net, MS-SQL Server and T-SQL
Name and address of employer	Powerholding, Vordingborg, Denmark
Type of business or sector	Office
Dates	October 2015 – November 2015
Occupation or position held	Senior Delphi developer
Main activities and responsibilities	Solving error in an old project. Buying new hardware revealed that the software was not counting right. Delphi and RS232
Name and address of employer	Anonymous, Hadsten, Denmark
Type of business or sector	Industry
Dates	December 2014 – September 2015
Occupation or position held	Senior .Net developer
Main activities and responsibilities	Solving problems in a project that had become way behind on ressources. Acting as team lead / scrum master and having the contact to the business department coordinating what to release. The project was about updating data and prices in a configuration system for heat exchangers. I personally did the price updates several times. C# / VB.Net programs, MS-SQL, Excel, XML, VirtuBuild modeler, SVN and Scrum
Name and address of employer	Danfoss, Nordborg, Denmark
Type of business or sector	Energy
Dates	August 2014 – October 2014
Occupation or position held	.Net developer
Main activities and responsibilities	Evaluating, analysing and advising on VB.Net programs, MVC 4.0 apps and MS-SQL
Name and address of employer	Siemens Wind Power
Type of business or sector	Energy
Dates	August 2013 – June 2014
Occupation or position held	Senior developer
Main activities and responsibilities	Developing a Prince2 based project management system. As the only programmer I have taken over this project developing new adds and making a lot of error correction and stabilization. C#, Silverlight, Share Point, MS SQL-Server, Application Integration.
Name and address of employer	Pactor, Søborg Hovedgade 61, 2860 Søborg, Denmark
Type of business or sector	Business/Sales
Dates	December 2013 – December 2013
Occupation or position held	Excel developer
Main activities and responsibilities	Reorganising the use and distribution of around 850 excel spreadsheets. Created a SQL-Server database to keep data instead of having the data in Excel. In that way statistics are faster and easier. Also having the organisation registered in the database to ease the distribution of the spreadsheets which are depending on several different base files. MS SQL-Server, Excel, VBA, C#, Visual Studio 2010.
Name and address of employer	Danske Bank, 8000 Århus C, Denmark
Type of business or sector	Finance
Dates	August 2012 – January 2014
Occupation or position held	Developer
Main activities and responsibilities	Developing a Windows application CRM system based on the needs of the sales person rather than his chief. The application gives You a tool to manage You contacts and agreements and makes You aware of follow ups to be done. The project is agreed to stand beside for a contract or other form of hiring. (Will then be taken over by my vife) A web solution and phone apps are next steps. C#, MS SQL-Server, WCF, Linq, exception and error handling, unit testing, Setup program, VSTO and Word/Excel/Outlook.
Name and address of employer	KplusK Aps, Landlystvej 33, 8600 Silkeborg, Denmark

Type of business or sector	Business/Sales
Dates	June 2010 – June 2011
Occupation or position held	Developer
Main activities and responsibilities	Developing communication between existing backoffice system and a new frontoffice system for stock exchange, most of the time single developer doing everything. The system needed to run 1000 transactions per second. It was made as a multitiered application. "State machine" to maintain the different states a specific command flow could have and to identify command flows that did not complete. Reestablished a bad relationship between SDC and one of their banks. The project was started by another concultant and his part of the project was one big misunderstanding. Because of that, the bank was not keen on SDC. I was in the end told that the people from Orc had told the people in the bank, that the project was in god hands by me taking over. C#, MS SQL-Server, Orc, Orc OP, FED, FED Link, Websphere MQ, WCF, Linq, exception and error handling, unit testing, TIA, Application Integration and Linux
Name and address of employer	SDC, Borupvang 1A, DK-2750 Ballerup, Denmark
Type of business or sector	Finans
Dates	February 2008 – April 2012
Occupation or position held	Hired as developer, but also acted as project leader, group leader and IT-architect.
Main activities and responsibilities	Developing a new administrative system for a big national government organization based on ESDH. As of the sensitivity in the project, everything needed to be logged. Tooke leadership in several occasions where things did not go well. Managed to pull the project in the right direction without stepping on someones tooes. I was praised by several in the organisation for my efford. When we finally got an efficient project leader, I on several occasions got the job to change existing windows as they did not perform well, this included changing the UI. JavaScript, C#, Oracle, XML, XSLT, SCRUM, WCF, Application Integration, exception and error handling, unit testing.
Name and address of employer	Anonymous
Type of business or sector	Government
Dates	December 2006 – October 2007
Occupation or position held	Developer
Main activities and responsibilities	Single developer hired to assist the quality team to optimize the awareness of quality data. Creating an intranet application like a UI on top of the data from database to export data from a database to excel for statistical analysis. Also made an application to maintain the numbers of tests made on a number of test mills. To make sure that the tests were not interfering with eachother. VB.Net, MS SQL-Server, Ajax, Delphi
Name and address of employer	Vestas, Alsvej 21, DK-8940 Randers SV
Type of business or sector	Industri
Dates	January 1989 – November 2006
Occupation or position held	Developer
Main activities and responsibilities	Working as a Delphi / Turbo Pascal developer in different companies. Mostly the projects have been related to hardware. Communication to different hardware devices or controlling the devices. Getting logfiles out of equipment, starting a break test, getting the data from the test equipment and presenting the data in a report. Starting and controlling a kettle burner on a ship. Getting the logfile out of a controlling unit from a cooling container, no information available, only a 15 pin plug and a manual of commands that would work towards an earlier version of the controlling unit. Using a movement registration unit from a burglar alarm and the RS232 to identify the level of activity in a pig pen. Getting picturedata from a framegrabber unit and identifying a pig in the picture. Getting data out of laboratory equipment through an A/D converter. Showing data from 4 devices on the screen in 4 coordinate systems as curves. It was in the times before windows and included a lot of math formulas to position the cursor point on the screen. Also I have made programs for different handhold terminals. Primus motor on changing from dos version to windows version in SAS, which I used for some years filtering data and running statistic analysis. Turbo Pascal / Delphi, C, C++, Different SQL databases, RS232, IEEE488, RJ45 and A/D Converter.
Name and address of employer	
Type of business or sector	Industri and government

I am used to have a full time work and an extra smaller project besides to use some extra hours and to learn new areas of development and for the fun. At Vestas I had an extra project for evenings and weekends. The SDC and the anonymous project also overlapped for a period.
Next to the anonymous project I also managed to make a small project to turn servers on and off to prevent use of electricity when there was no need of the servers as of nights and weekends. Next to the project at Pactor I have worked on the CRM system as well and made a small Excel project for Danske Bank too.

Education and training

Dates	August 1987 – January 1989
Title of qualification awarded	Programmers Assitent. Together with several courses I am almost at the level of Bachelor.
Name and type of organisation providing education and training	Skive EDB Skole, Arvikavej 2, DK-7800 Skive
	SAP Business One 1000, SAP Business One 1100, SAP Business One 1200 all at SAP Denmark in 2004. (I do not remember if there was a course named 1300 too?)

Personal skills and competences

Language	C1	German	C1	German	B2	German	B2	German	B2	German

(*) Common European Framework of Reference for Languages

Social skills and competences	As a freelancer I am used to join new projects and meet new people. In the anonymous government project I worked with people from different countries. At Vestas I worked for an Indian guy and our leader came from USA.
Organisational skills and competences	I have been tested to have the leader qualifications, again in the anonymous project I took the lead in several cases. In associations I have been in several borders
Computer skills and competences	Working with both support and programming, you often get to use the Office products. I have used both Microsoft and Open Office. Programming also forces you to get to know databases. I am used to be forced into the use of unknown products luckily so far with success. At Vestas I had to change programming language from Delphi to VB.Net. I am used to do a lot of creative UI's. However I do get the best results, when I can have some ping pong with the product owner. I have ie created our logo combining, what we do as is also the company name and the traffic light signalling that our results run.
Artistic skills and competences	Working in wood as a hobby. Carving, turning and Scroll sawing incl. intarsia, using my creative skills.
Other skills and competences	I use to work hard and as a person I am very mush concentrated on quality
Driving licence	B+E
